

# PRACTICE OPPORTUNITY '26

in collaboration with the Ontario Chiropractic Association

**DR. DAN NIGHSWANDER,  
CCA KEYNOTE SPEAKER**

Dr. Dan Nighswander graduated from CMCC in 2020. Shortly after graduation, he accepted a locum position in Lindsay, ON, while simultaneously building his first solo clinic in Fenelon Falls, which opened in 2022. In 2023, he continued to expand his portfolio by co-founding a multidisciplinary clinic in Lindsay, ON, now home to over twenty healthcare providers. Dan's work is grounded in attention to detail, data-informed decision-making, and consistent effort, which he applies to developing systems that prioritize patient outcomes while supporting sustainable clinic growth.

Outside of clinical practice, Dan is deeply involved in community leadership and currently serves as Chair of the Fenelon Falls & District Chamber of Commerce, in addition to holding roles on several local boards and organizations. This leadership experience has helped him build extensive professional networks and develop practical skills that directly inform the growth and operation of his clinics. Having entered practice relatively recently, Dan brings a practical, modern perspective on building a clinic that aligns clinical excellence with sound business principles.
