DR. JEAN A. MOSS TO BE AWARDED CCA MEDAL OF MERIT

Dr. Jean Moss will be awarded the Canadian Chiropractic Association's highest honour today during the Canadian Memorial Chiropractic College's graduation ceremonies at Convocation Hall, 31 King's College Circle, at 2:00 p.m.

The Medal of Merit was established in 1988 and is presented to an individual who has demonstrated outstanding service to the chiropractic profession. There have been only six Medals of Merit presented in the history of the award. Past recipients of this honour are Drs. Herbert Lee, Wilf Morgan, Donald Sutherland, Paul Carey, Normand Danis and Greg Dunn.

Dr. Jean Moss was appointed President of the Canadian Memorial Chiropractic College (CMCC) in 1991. She is the first woman to serve as President of CMCC and currently the only female head of a chiropractic college in North America. During her ten years as President the College has prospered - building historic clinical relationships with universities and hospitals; supporting the pursuit of chiropractic research by faculty members; and developing a new, integrative curriculum, which is quickly becoming the gold standard in chiropractic education worldwide. Over the past decade clinical education has also been enriched at CMCC with the expansion of clinical opportunities for interns; CMCC now boasts a total of seven teaching clinics located throughout the city of Toronto, each of which provides chiropractic services to a different segment of the population.

A tenacious lobbyist, tireless spokesperson and modern-day visionary, Dr. Jean Moss is a respected leader within the chiropractic profession. While Dr. Moss is humbled by this honour, she is proud to be included among its recipients and to be the first female awarded the CCA Medal of Merit.
